

DID YOU KNOW?

IN SCOTLAND

of households are in **Fuel Poverty**

This number has significantly risen, and will continue to rise, due to subsidising wind energy and associated infrastructure, by adding the costs onto household energy bills.

What are the **financial** costs?

Feed-In-Tariffs

Construction of National Grid Interconnectors

Renewable Obligation Certificates

New Transmission Lines

Construction of backup Fossil Fuel Stations

Constraint Payments

Construction of Smart Grid

Cost of installing Smart Meters

Paying for Diesel Backup Generators
