

# PERTH DEMO

*19th October 2013*

Start: 12.30pm, South Inch Car Park, Perth

The WIND ENERGY industry  
creates TOXIC POISONOUS lakes  
in China

Wind turbines use Neodymium as a replacement for gears. Neodymium is a Rare Earth Mineral extracted from deep underground and mixed with toxic chemicals. The waste is then dumped in a 5 mile toxic lake next to communities, poisoning local water supplies and farming. Chinese communities are suffering from various illnesses, cancers and death.

say **NO** to wind energy
