# PERTH DEMO

**19th October 2013**

Start: 12.30pm, South Inch Car Park, Perth

*Since the turbines went up, I can no longer get a decent night's sleep in my own home.*

Wind turbines produce a range of sound from high to ultra-low frequency (infrasound). Audible noise and low frequencies (usually felt rather than heard) in your home disturb sleep and damage the health of those forced to live next to industrial wind turbines.

say **NO** to wind energy
